Bastl Instruments Neo Trinity 1999 MIDI Expander

Release Notes

1999-expander-1.0

release version

HOW TO UPDATE:

1. Turn off your eurorack.
2. Unconnect the module.
3. Set the DEVICE/HOST slider switch to the top position (DEVICE).
4. Connect the module to your computer using the front USB-C while holding the SET button.
5. Copy the UF2 firmware file onto the RPI-RP2 drive.
6. After the file is uploaded, the drive unconnects itself and the module LEDs will quickly flash.
7. Put the module back to the eurorack and turn it on.
