kastle2-fx-wizard-1.0

release version

To check the firmware version, listen to the audio output and boot Kastle 2 into the Test Mode: Hold FX MODE button and turn power ON.
A voice will announce the firmware version.

HOW TO UPDATE:

1) Connect Kastle 2 with a USB-C cable to your computer
2) Turn OFF the power switch (left)
3) Hold SHIFT and turn ON the power switch (right)
4) Kastle 2 will boot to the update mode (no sound)
5) Copy the firmware **.uf2** file to the RPI-RP2 disk showing on your computer.
